

Collective Behaviour

Seminar Series

Winter Semester 2023/24

Mondays at 15:30, room ZT702 and online

13.11.2023 **Leveraging social contagion to foster consensus in collective decision-making**
Roland Bouffanais, University of Geneva

27.11.2023 **The evolution of bee communication through arms races: an eternal Zauberbrunnen**
James Nieh, University of California San Diego

04.12.2023 **PhD Pitchwork: a session of short talks and science pitches**
Members of the CASCBS Doctoral network

11.12.2023 **The robot colleague: in-situ learning for socially assistive robots**
Katie Winkle, Uppsala University

18.12.2023 **What makes groups successful? The interaction between individual and group-level social phenotype**
Michael Griesser and cluster project group L21-04, CASCBS/Uni Konstanz

15.01.2024 **Find out what we can do you for you: Uni Konstanz research support, knowledge and technology transfer, and CASCBS science communication**

Annett Giebelhausen, Anja Weidenmüller, Elisabeth Böker, CASCBS/Uni Konstanz

22.01.2024 **Drivers of individual behavioural diversity within collectives: two case studies in ants**
Alba Motes Rodrigo, University of Lausanne

29.01.2024 **Neuroethology of natural social dynamics in rhesus macaques**
Camille Testard, Harvard University

05.02.2024 **The power of inhibition for collective decision making in minimalistic robot swarms**
Andreagiovanni Reina, CASCBS/Uni Konstanz
