Visit Programme

10.00 Arrival

10.15 Welcome of the group by Prof. Malter Drescher, Prorector for Research, Career Development and Research Infrastructure

Short introduction to the University of Konstanz

Overview Cluster of Excellence Centre for the Advanced Study of Collective Behaviour

10.45 Presentation Dr. Ariana Strandburg-Peshkin.

She is a research group leader jointly affiliated with the University of Konstanz Biology Department and the Department for the Ecology of Animal Societies at Max-Planck-Institute of Animal Behaviour. <https://www.cocomo.group/>

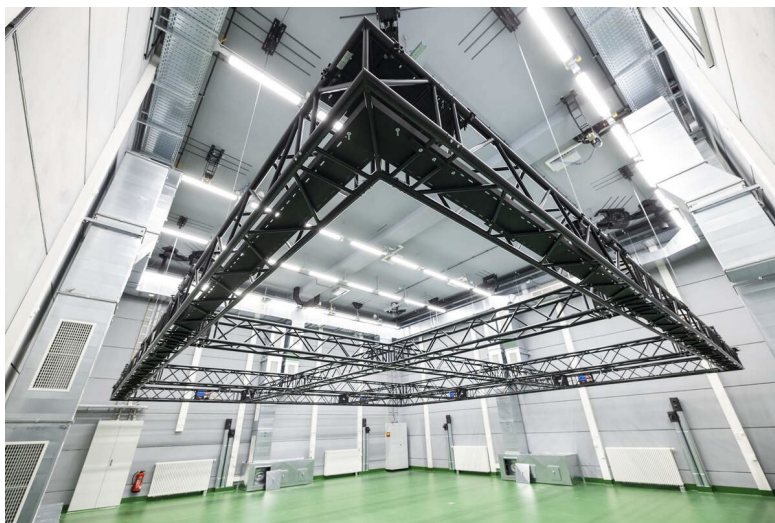

Her group studies the mechanisms and consequences of collective behavior in social animals, and she has been a member of the Centre for the Advanced Study of Collective Behaviour since it began in 2019. <https://www.ab.mpg.de/240525/dr-ariana-strandburg-peshkin>

She will give an insight in her research about meerkats: "Let's go! How animals communicate and coordinate on the move"

11.15 Questions&Discussion

11.40 Visit VCC and Imaging Hangar
